WELLBEING DIRECTORY

Welcome to the **TOGETHER** Wellbeing Directory
Drug & Alcohol Service

The outbreak of the COVID-19 has impacted us all in varying ways. It is understandable that during times like this, we may be feeling afraid, worried, anxious and overwhelmed by the constantly changing alerts and media coverage regarding the spread of the virus. The sudden change of routine and how we previously filled our days is one of the hardest things.

There are lots of creative options for people to get involved with from virtual meet-ups, exercise classes and learning new skills. As well as some practical support options for those who need it.

We have mapped the best of what is on and referenced this against the Five Ways to Wellbeing and put together a tip list to help us through these times:

1. **Continue with the basics.** Get up, shower, brush your teeth, dress and have your usual cuppa and breakfast. This will help you to feel more 'human' every day and will help with your structure and routines.
2. **Open the curtains** throughout your flat/house and open the window – connect with the outdoors and have some fresh air 😊
3. **Create a new routine.** The loss of our usual routine can be the hardest thing and we suddenly find ourselves wondering how to fill our days. Use our Wellbeing Directory for isolation as inspiration. Plan ahead if you can – we are more likely to do something if we have committed to it by planning in advance.
4. **Be Kind to Yourself.** Choose something positive to do for yourself every day. It might be something small, like taking a bath or reading a chapter of a book, but take notice of the moment and recognise it a nourishing act of kindness.
5. **Limit the amount of news you see.** While it is great to feel informed, too much news can feel overwhelming. Try to get your information from a reliable source at set times such as newsbeat on the radio or the 6pm news on the TV.
6. **Health and Exercise** – what we eat massively effects the way we feel so do aim to maintain a healthy diet with fruit and vegetables and make good use of your daily exercise allowance and garden if you have one.
7. **Try something new** - there are lots of exciting initiatives happening in the online world but you also might have a book or activities stashed away somewhere gathering dust that its finally time to revisit! 😊

Developed by the New Economics Foundation in 2008, Five Ways to Wellbeing is an evidence-based and holistic approach to improving mental health and emotional wellbeing, focusing on 5 key actions: **Connecting** with others, **Learning**, getting **Active**, taking **Notice** and **Giving**.

- **Connect:** With the people around you. With family, friends, colleagues and neighbours. At home, work, school or in your local community. Think of these as the cornerstones of your life and invest time in developing them. Building these connections will support and enrich you every day.
- **Learn:** Try something new. Rediscover an old interest. Sign up for that course. Take on a different responsibility at work. Fix a bike. Learn to play an instrument or to cook your favourite food. Set a challenge you'll enjoy achieving. Learning new things will make you confident, as well as being fun.
- **Active:** Go for a walk or run. Step outside. Cycle. Play a game. Garden. Dance. Exercising makes you feel good. Most importantly, discover a physical activity that you enjoy and that suits your level of mobility and fitness.
- **Notice:** Be curious. Catch sight of the beautiful. Remark on the unusual. Notice the changing seasons. Savour the moment, whether you are walking to work, eating lunch or talking to friends. Be aware of the world around you and what you are feeling. Reflecting on your experiences will help you appreciate what matters to you.
- **Give:** Do something nice for a friend, or a stranger. Thank someone. Smile. Volunteer your time. Join a community group. Look out, as well as in. Seeing yourself, and your happiness, linked to the wider community can be incredibly rewarding and creates connections with the people around you.
